PRODUCT DESCRIPTION

The LEIA series of pendant lights are classically elegant lamps in a modern style. The design is based on simple and timeless solutions, with a round rosette, straight arms and circular shades in white.

The collection includes pendant lights, reminiscent of retro design, suitable for 4 or 6 light sources. The series has been created to colourfully fit in with any type of décor.

Models with gold, chrome, black, black-gold or white-gold finishes will fit perfectly into both austere, ascetic interiors and old Hollywood-style arrangements.

The LEIA 6P model, is a pendant light consisting of 6 individual light sources set in pairs on crossed arms in white and gold. It is suitable for interchangeable E27-type light sources, each with a maximum wattage of 60W. It is designed to be mounted on the ceiling, allowing you to create an original arrangement that will decorate your interior with more than just light.

Light bulbs are not part of the set and must be purchased separately.
