PRODUCT DESCRIPTION

KYLO is a light series designed for the comprehensive arrangement of dream interiors. The series includes hanging, standing and desk lamps. All the lamps are adapted for E27 light sources of 60W each and are maintained in an elegant and simple style, alluding to classic designs which fit into various types of arrangements.

The cylindrical lamp in black and gold is an elegant and modern addition to any room. Its simple form consists

of a matt black frame, which is complemented by gold shade accents. The gold finish of the shade reflects the light and adds a luxurious and eye-catching look to the lamp.

The KYLO 200 1P pendant light is adapted for one light source, which is sufficient to illuminate the room evenly. The light emitted by the lamp - depending on the type of bulb used - can be warm, soothing and pleasing to the eye or cool, just right for work.

The lamp has a diameter of 20cm and blends in perfectly with modern interior designs, especially with black and gold accents. It can be placed in the central point of a room or anywhere you like, such as above a table, to focus attention on other decorative elements. The black pendant light is an opportunity to create an elegant and stylish atmosphere in your home or office.
