PRODUCT DESCRIPTION

Round LED downlight luminaire with a built-in power supply, designed for surface mounting in rooms such as kitchens, or in areas like staircases, corridors, basements, garages, etc. Modern SMD LED diodes used in the product guarantee high energy efficiency and long life of the device. The presented wall and ceiling lamp works with rated power of 18W and emits light with luminous flux of 1600 lm. It shines at a temperature of 4000K. This color of light is basically intended for homes because it is pleasant for reading and working, but it does not give the impression of sharp office light. The product is suitable for both ceiling and wall mounting,

and the composition of several such luminaires will create an interesting visual effect, e.g. in the hall or staircase. Material: PMMA + aluminum.
