PRODUCT DESCRIPTION

Surface-mounted downlight is a point light suitable for ceilings. It is square in cross-section and combines minimalism with an innovative design that allows to emphasize the interior elements of residential and commercial spaces. Several such luminaires, placed together at a certain distance, create a very interesting and modern visual effect. Thanks to this product, you can create additional lighting zones that either complement the basic lighting or create a separate cozy atmosphere on its own. The product is suitable for both halogen and LED light sources with a GU10 base (not included), with a maximum power of 50W. This

downlight is made of aluminum and is available in two colors - white or black. Its installation is very simple, and the necessary pins and gaskets are included in the kit.
