HORIN LED 200W high-bay industrial light, 18000lm, IP65, 4000K, aluminium

Marka: **ADVITI** | Symbol: **AD-OP-6210L4** | Ean: **5908254823084**

PRODUCT DESCRIPTION

A modern, energy-saving high-bay luminaire uses LED technology, which significantly reduces energy consumption costs. Thanks to the use of SMD diodes, the product produces a powerful luminous flux with a power of 18000 lm (with energy consumption of only 200 W). Thanks to such a strong luminous flux, the luminaire perfectly illuminates high industrial rooms and warehouses with difficult working conditions. The lamp is made of die-cast aluminum, which does not corrode, and the shade made of tempered glass, protects the light source against external factors. High degree of protection IP65 proves the lamp's resistance to dust, dirt,

water, corrosion, shocks and vibrations. The luminaire is suitable for both indoor and outdoor installation.

TECHNICAL DATA

General information:

Luminous flux:	18000 lm
Rated power:	200 W
Light source:	LED SMD
Degree of protection (IP):	65
Colour temperature:	4000
Colour:	black
Dimensions - depth:	149.5 mm
Dimensions - width:	390 mm
Dimensions - height:	89.5 mm
Colour rendering index CRI:	80
Material:	Aluminium/Glass
