AdvitiMarka: **ADVITI** | Symbol: **AD-OP-6347BGU10** | Ean: **5908254828010**

PRODUCT DESCRIPTION

Fixtures from the RINO group represent a classic design that is easy to adapt in many interior arrangements, with a variety of styles. This movable wall-ceiling luminaire contains four holders for light sources which can be independently oriented. It allows you to arrange light in a way that best highlights advantages of a given room or illuminate strategic places in a study, office or living room, or generally speaking, adjust the level of light to the degree we need in a particular place. RINO SP4 is suitable for installation in homes, offices and conference rooms, taking into account its IP20 protection level and a very good price-quality ratio, which is of

great significance. It will look neatly on the wall, but it will also work well as an element of ceiling lighting. The round, easy-to-install luminaire and four cylindrical lampshades are made of high-quality steel. Each lampshade holds a holder for one light source - a 50W halogen bulb. This model is RINO SP4 (4x50W), in black - check other variants of the RINO series. Bulbs sold separately, not included.

TECHNICAL DATA

General information:

Outer diameter:	200 mm
Nominal voltage:	230 V
Lamp type:	Bulb
Suitable for lamp power:	50 W
Lamp holder:	GU10
Suitable for number of lamps:	4
