AdvitiMarka: **ADVITI** | Symbol: **AD-OP-6432BE27** | Ean: **5908254829529**

PRODUCT DESCRIPTION

Rio is the luminaire series that was created to illuminate an entire flat, house or large utility area within a single aesthetic line. The series includes models with different numbers of light points, suitable for surface-mounting - ideal for a classic flat or house, but equally suitable for an office or commercial premises.

Rio wall and ceiling luminaires are classically simple light fittings made from high-quality materials. Rio is suitable for replaceable E27-type light sources of 60W each. Light bulbs are not part of the set and must be

selected separately. All of the luminaires in this series are IP20 rated, making them a suitable choice indoors.

The universal design of the series means that it will easily fit in with different types of interior decoration and gently complement selected rooms with light. An additional feature is that the light beam can be precisely directed.

RIO SP4, is a quadruple luminaire with movable heads, set on a rectangular strip. The fixture is made of powder-coated aluminium in black. The wall lamp is suitable for use as corridor lighting or as a solution for narrow walls, but it can also be used as ceiling lighting, centrally placed as a main point of light. With four independently adjustable heads, you can illuminate the room as you wish - evenly or spot-on.

TECHNICAL DATA

Technical specification

General information:	
Nominal voltage [V]:	230
Lamp type:	Żarówka
Suitable for lamp power [W]:	4x60
Lamp holder:	E27
Suitable for number of lamps:	4
With light source:	nie
Max. power [W]:	4x60
