PRODUCT DESCRIPTION

The garden luminaire PACHIRA LED is a reliable source of light that works well as illumination of a building facade, balcony or terrace, as well as it will illuminate access to the property.

It is equipped with LED technology that ensures energy efficiency and long service life, and the luminous flux of 500lm and power of 9W guarantee optimal lighting conditions. The colour temperature of 4000K allows to enjoy pleasant neutral light that would create an atmosphere perfect for evening relaxation in the garden.

The luminaire is resistant to weather conditions. Thanks to safe IP54 rate construction it guarantees reliability even in the most demanding conditions.

Black aluminium housing combined with milky plastic lampshade easily fits in every architecture.

The dimensions of the luminaire measure 210x63x80mm. The garden luminaire is also available with PIR motion sensor.
