PRODUCT DESCRIPTION

The LUNA II and OFELIA luminaires are impressive garden balls and a perfect choice for those who want to create a unique atmosphere in their garden, terrace or balcony. As they are universal, they may be used indoors as decorative illumination in, for example, hotels or banquet rooms.

Thanks to the possibility of choosing between two ball sizes and two colours, milky or stone imitating, the users may freely create their own arrangements.

The lamps have high ingress protection rate IP65 which guarantees perfect protection against heavy weather conditions, and high impact protection rate (IK08) which protects against impacts and damages.

Each luminaire is meant for one E27 bulb of max. 18W power (bulbs not included). The replaceable light source enables the users to choose the bulbs individually and to adjust the colour of the light to their own preferences.

Both the installation and replacement of light sources are easy and intuitive. The 1,5 m long rubber wire with 2x1mm² cross section ends with a plug and ensures flexibility and comfort while installation. The nominal voltage is 230V.

The presented OFELIA garden ball is made of high-quality plastic. The diameter of the housing measures 380. Grey colour, stone imitating.

Also, OFELIA with diameter of 280 as well as LUNA II, both in white colour, are available.

TECHNICAL DATA

General information:

Nominal voltage [V]:	230
Lamp type:	Żarówka
Suitable for lamp power [W]:	18
Lamp holder:	E27
With light source:	nie
Suitable for number of lamps:	1
Degree of protection (IP):	IP65
Impact strength:	IK08
Protection class:	II
Type of luminaire:	Kule ogrodowe
Material housing:	Tworzywo sztuczne
Colour housing:	Szary
Height/depth [mm]:	350
Diameter [mm]:	380
Voltage type:	AC

Type of wiring:	Końcowe
Conductor cross section [mm ²]:	2x1
Other features:	Przewód 1,5m
