PRODUCT DESCRIPTION

LED staircase lights designed to provide decorative lighting to stairways, halls, walls, facades and other indoor traffic areas. The unique design of the light, its fixture made of stainless steel and the use of LED technology make the lamp suitable for both – classic and modern interiors. This staircase lamp works with rated power of 1.5W and emits light with luminous flux of 30 lm with a pleasant colour, which is 4000K. The innovative method of assembly allows you to mount the luminaire in any box with a diameter of 60 mm.

TECHNICAL DATA

General information:

Place of application:	Inside
Possibility of cooperation with a dimmer:	No
Durability L70/B50:	20000 h
Connection type:	Free cable ends
The minimum distance from the illuminated object:	0,5 m
Luminous flux:	30 lm
Rated power:	1.5 W
Light source:	LED SMD
Degree of protection (IP):	20
Colour temperature:	3000
Nominal voltage:	12V DC
Ambient temperature range to which the product may be exposed:	- 30 ~ 45 °C
Colour:	satin
Installation:	in Ø60 mounting box
Dimensions - depth:	32.5 mm
Dimensions - width:	75 mm
Dimensions - height:	75 mm
Other features:	Innovative system that allows flush-mounting in any 60 mm junction box
Colour rendering index CRI:	>80
Weight:	42.5 g
Material housing:	Steel plate
Material of the lampshade:	Acrylic glass
Number of on / off cycles:	10000
Protection class against electric shock:	III
