PRODUCT DESCRIPTION

LED staircase luminaire designed to provide decorative lighting to stairways, halls, walls, facades and other indoor traffic areas. The unique design of the luminaire, its fixture made of stainless steel and the use of LED technology make the product suitable for both – classic and modern interiors. In addition, the luminaire has been equipped with a motion sensor and a twilight sensor, thanks to which (depending on the settings) the staircase lighting will only turn on when it detects movement or when light intensity is sufficiently low.

TECHNICAL DATA

General information:

Place of application:	Inside
Possibility of cooperation with a dimmer:	No
Durability L70/B50:	20000 h
Connection type:	Free cable ends
The minimum distance from the illuminated object:	0,5 m
Luminous flux:	30 lm
Rated power:	1,5 W
Light source:	LED SMD
Degree of protection (IP):	20
Colour temperature:	3000
Nominal voltage:	12V DC
Ambient temperature range to which the product may be exposed:	- 30 ~ 45 °C
Colour:	black
Installation:	in Ø60 mounting box
Dimensions - depth:	45 mm
Dimensions - width:	75 mm
Dimensions - height:	75 mm
Other features:	PIR version - can manage max. 8 staircase luminaire in basic version.
Colour rendering index CRI:	>80
Weight:	42.5 g
Material housing:	Steel plate
Detection angle:	120°
Material of the lampshade:	Acrylic glass
Control of the motion sensor:	Yes
Number of on / off cycles:	10000

Protection class against electric shock:	III
Dimensions of the mounting hole:	62 mm
Type of sensor:	PIR
Detection range:	2-3 m
Daylight sensor adjustment range (LUX):	<0-25lux
Lighting time adjustment range (TIME):	3-45s
