PRODUCT DESCRIPTION

This ceiling luminaire has been designed to automatically illuminate rooms such as: staircases, corridors, basements, garages, warehouses, etc. This lighting fixture is equipped with a microwave motion sensor, which is placed inside and, depending on the settings, it will detect even the smallest movement. Thanks to three potentiometers, the sensor can be set according to the needs, so as to operate exactly when people are present or they are moving in a given area. The settings include: lighting time within the range from 10 seconds to 12 minutes, light intensity and motion detection range from 2 to 16 m. The base of the ceiling lamp is made

of unbreakable polycarbonate, and the lampshade is made of glass in a milky color. This ceiling light, is suitable for replaceable light source with an E27 base. The presented ceiling works with rated power of 60W.
