PRODUCT DESCRIPTION

This ceiling lamp is designed to illuminate areas such as staircases, corridors, verandas, cellars, garages, utility rooms, cloakrooms, outdoor lighting, etc. It is equipped with modern SMD LEDs, which guarantee high energy efficiency and a long life of the ceiling lamp, as well as a microwave motion sensor. Depending on the settings, the twilight sensor only switches on the lighting when required. Thanks to four potentiometers, the

sensor can be set as required, so that it operates exactly when people are present and moving in the area. In addition, it has a dimming function of up to 20% of its power at a selected time. Adjustable: light duration, light intensity sensitivity, motion detection range and dimming time. Material: milky, polycarbonate (PC) diffuser, unbreakable.
