PRODUCT DESCRIPTION

Z-P-Z LED strip connector helps to quickly and easily connect two LED strips, where the width of the strip is 10mm, without any soldering. A clip joint and a flexible wire make the installation even easier. You just have to put the strip into the connector and clip it.

TECHNICAL DATA

General information:

Nominal voltage:	12V DC
Dimensions - width:	14 mm
Dimensions - length (mm):	155 mm
Degree of protection (IP):	20
