PRODUCT DESCRIPTION

LED RGBW lighting strip is a product with a wide range of applications. You may stick it to the desired surface or you may use LED profiles (recessed, surface-mounted, angled). Thanks to small size (it is only 12 mm wide) it is easy to install on the walls, furniture, near the mirror or even in the places where there is no traditional light e. g. wardrobe niches.

The band is equipped with 60 LED diodes per meter. Due to RGBW it may emit white or color light. Application

of the LED strip is economical and, on the other hand, efficient in terms of the amount of light generated. The usage is completely safe thanks to 12V DC supply voltage.

The IP65 LED strip will work outdoors and indoors to illuminate rooms of increased humidity, such as kitchen or bathroom. It is 5 m long and may be cut every 5 cm in order to customize it to individual needs.

Connection to the relevant TUYA controller enables remote lighting control with the help of mobile application or voice assistant.

Controllers and other fixing accessories are available in our offer.

TECHNICAL DATA

General information:

Lamp voltage [V]:	12
Lamp type:	LED, niewymienne
Lamp power per meter [W]:	14.4
Luminous flux per meter [lm]:	330
Model:	Taśma
Degree of protection (IP):	IP65
PCB:	Podwójne 12mm
Chip type:	SMD 5050
Energy efficiency class of the built-in lamp:	G
Max. system power [W]:	72
:	14.4
Rated life time L70/B50 at 25 °C [h]:	30000
Cycle on/off:	30000
Colour of light:	RGBW
Colour rendering index CRI:	80-89
Beam angle (°):	120
Number of nodes per meter:	60
Suitable for dimmer:	tak

Cut every ... [cm]:	5
Width [mm]:	12
Height/depth [mm]:	2
Length [mm]:	5000
Voltage type:	DC
Type of control gear:	Sterownik LED sterowany napięciowo
Exchangeable control gear:	tak
Self-adhesive:	tak
