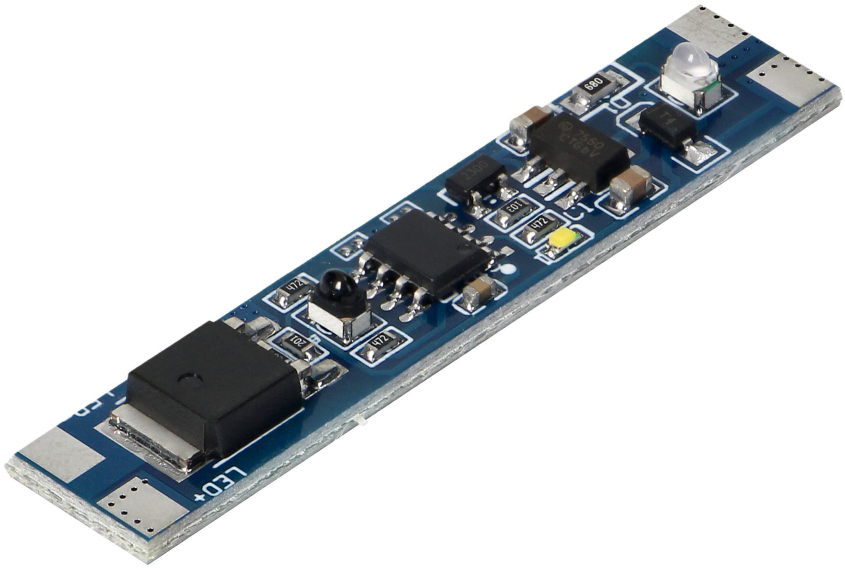
Proximity dimmer switch for LED strips, 8A

Marka: **ADVITI** | Symbol: **AD-TL-6497/P-S** | Ean: **5908254842146**



PRODUCT DESCRIPTION

Proximity dimmer switch for LED strips, with max. 8A current and IP20 protection level. It is a small device measuring 10 x 48 mm, which allows the LED strip in the profile to be turned on and off proximity (just move your hand within 6 cm of the switch). Dimensions allow installation in profiles with an internal width of more than 10 mm.

A model equipped with a practical touchless light dimming function which, by holding your hand under the

ORNO GROUP Sp. z o. o. All rights reserved.

switch for a longer period of time, allows you to change the light intensity as required.

The IP20-rated switch means that it can only be used indoors. The device is ideal, for example, in the kitchen, in situations where we have dirty hands.

Power max. 40W at 5V and 96W at 12V.

A great convenience is the easy installation - the device simply needs to be soldered to the LED strip on one side and to the power supply unit on the other.

TECHNICAL DATA

General information:

Type of accessory/spare part:	Układ sterujący
Accessory:	tak
Switch type:	Zbliżeniowy
Voltage [V]:	5-24
Power max. :	5V-40W, 12V-96W, 24V-120W
Detection type:	Podczerwień
Detection range [mm]:	10-60
Suitable for dimmer:	tak
Built-in diode:	tak
Degree of protection (IP):	IP20
Protection class:	III
Mounting:	Wbudowany
Current max. [A]:	8
Width [mm]:	10
Height/depth [mm]:	1
Length [mm]:	48
