PRODUCT DESCRIPTION

Angle LED connector "L" for 8 mm wide LED strips with max. power 48V. This is a convenient solution for connecting single-color LED strips at 90°. Thanks to its small size, it works well for connecting strips in aluminium profiles - with the need for soldering.

The model allows the use of additional compression connectors - in which case there is no need to solder the connector to the strip.

Dimensions 16 x 16mm.
