PRODUCT DESCRIPTION

Tuya wireless LED strip controller is an innovative solution for managing LED strip lighting. Synchronisation of the controller with the mobile app ensures convenience of use (without remote control). The installation of a dedicated phone app (Android/iOS) will enable controlling the lighting with voice assistants such as Alexa or Google. Thanks to the remote operation of the device, it is easy to switch the lighting on/off, program your own lighting effects and smoothly adjust the light intensity. The IP20 controller is designed for indoor use. The maximum power of the LED strip at 12V, may not exceed 72W.

TECHNICAL DATA

General information:

Product type:	Sterownik Tuya
Application:	Taśmy LED mono
Control path:	Aplikacja
Operating method:	TUYA
Transmission frequency:	2,4GHz
Output voltage [V]:	5-24
Input voltage [V]:	5-24
Current per channel [A]:	6
Max. output current [A]:	6
Max. power of LED strip:	12V 72W
Max. power load for all channels:	12V 72W
Degree of protection (IP):	IP20
Colour:	Mono
Controller length [mm]:	89
Controller width [mm]:	48
Controller height [mm]:	23.5
Input/output voltage of the receiver:	5-24V
Number of receiver outputs:	1
Number of colour channels:	1
Programmable:	tak
Compatible with Google Assistant:	tak
Compatible with Amazon Alexa:	tak
Compatible with TUYA:	tak
