

Bathroom fan 100mm, surface-mounted -with timer and humidity sensor

VIRONEMarka: **Virone** | Symbol: **BF-100/HT** | Ean: **5908254815942**

PRODUCT DESCRIPTION

Useful bathroom fan that automatically draws the moist air to the outside. It is designed for wall mounting. A very quiet device that will take care of the air quality in the bathroom, but will not disturb our relaxation zone. The fan has a compact design 135x135mm and a short exhaust pipe with a length of 135mm, which will fit even in shallow ventilation ducts. The device is operated by a timer and humidity sensor that turns off the fan when the humidity drops below the set level.

TECHNICAL DATA

General information:

Type:	Bathroom fan
Installation:	Wall
Control:	humidity sensor and timer
Dimensions - depth:	79 mm
Dimensions - height:	135 mm
Dimensions - width:	135 mm
Air flow:	93 m ³ /h
Sound pressure:	26 dB
Static pressure:	30 Pa
Rotation speed:	2400 rpm
Rated power:	8 W
