

Smart handle with touch keypad and fingerprints reader, black

ViRONEMarka: **Virone** | Symbol: **CDL-1/B** | Ean: **5908254826801**

PRODUCT DESCRIPTION

A modern smart handle with a touch keypad and fingerprint reader, which can be used on both right and left-hand doors in place of a traditional handle. It can be opened by entering the user's PIN code, scanning a previously memorised fingerprint or via a bluetooth connection to an application on the phone. It can be installed in thick (max. 56mm) and thin (min. 38mm) doors thanks to the included mounting screws, the handle's elegant and universal shape fits many different types of doors. The handle is equipped with an emergency cylinder so that the door can be opened if the electronics fail, and an emergency USB-C charging socket in

case the battery runs down. Colour: black.
