

## Doorbell button, battery-powered, for wireless doorbells, FALANTE series

**VIRONE**Marka: **Virone** | Symbol: **DB-5PD** | Ean: **5908254828737**

### PRODUCT DESCRIPTION

FALANTE is a wireless battery-operated doorbell, expandable with additional doorbell buttons, which will be the perfect solution for those looking for an aesthetically pleasing, functional and extremely practical product. The doorbell is distinguished by its elegant design and high quality finish, thanks to which the receiver with a fabric front looks beautiful in any room.

The real advantage of the product is the non-obvious possibility of expanding the receiver with further

transmitters, thanks to the Learning System solution.

A wireless doorbell button will be used to connect more than one location to the receiver. The button can be placed at the wicket, and a second, additional button can be placed at the front door, back door, gate or other entrance to the property, for example.

## TECHNICAL DATA

### General information:

<b>Wireless:</b>	tak
<b>Type of current:</b>	DC
