

TELERO AC, wireless mains-powered doorbell, battery free doorbell button, learning system, 36 sounds, 200m, black

Marka: **Virone** | Symbol: **DB-8/B** | Ean: **5908254848889**

PRODUCT DESCRIPTION

The wireless doorbell TELERO AC is a device combining convenience with functionality that will work well in every home. The transmitter's wireless technology and the receiver's mains power supply, eliminates the need to change batteries, ensuring continuous and reliable operation.

The doorbell's range in the open field is up to 200 m giving freedom of transmitter's installation as it may be placed at the entrance door or wicket even in a large distance from the building without the risk of losing the signal. Just plug the receiver into a power socket.

The doorbell has up to 39 different sounds to choose from. The user can easily adapt the signal to his or her preferences or the occasion, for example by choosing a festive or classic sound. What is more, the device offers a 5-position volume control from 0-100 dB including total mute, depending on the time of day and the environment.

The TELERO AC doorbell offers also optical-sound mode which combines sound with additional light indication. This solution catches the eye, even when the sound is completely muted.

Another advantage of this unit is the system's expandability. Thanks to the learning system, further TELERO transmitters may be added. The transmitters connect to a single receiver, which enables a single bell to be used for several different entrances without multiple devices.

The transmitter is rain and dust resistant - it has an IP44 rating.

The compact dimensions (81x81x72 mm) make it easy to place the receiver anywhere in the house. It is made of durable plastic in black, providing a modern look that fits into any interior.

The transmitter has large dimensions (86x86x20 mm), increasing convenience of use, e.g. for the elderly. In addition, it is equipped with illumination for better visibility and ease of use, especially after dark. Black colour.

TECHNICAL DATA

General information:

Wireless:	tak
Max. transmission range [m]:	200
Frequency [MHz]:	433,92 MHz
Possibility of extension by an additional transmitters:	tak
Other features:	learning system

Receiver:

Type of current (receiver):	AC
Nominal voltage [V]:	230

Electricity consumption:	<0,4W
Number of ringtones:	39
Loudness [dB]:	100
Volume adjustment:	tak
Volume adjustment range [dB]:	0-100
Optical indication:	tak
Mounting method:	Montaż natynkowy
Degree of protection (IP):	IP20
Housing material (receiver):	Tworzywo sztuczne
Colour housing:	Czarny
Width (receiver) [mm]:	81
Height (receiver) [mm]:	81
Depth (receiver) [mm]:	72

Transmitter:

Type of current (transmitter):	Bezbateryjny
Transmitter max. power [mW]:	10
Degree of protection (IP) (transmitter):	IP44
With lighting:	tak
With name plate:	nie
Housing material (transmitter):	Tworzywo sztuczne
Colour (transmitter):	Czarny
Width (transmitter) [mm]:	86
Height (transmitter) [mm]:	86
Depth (transmitter) [mm]:	20
