

## Battery-free doorbell button for wireless doorbells, TELERO series, black

Marka: **Virone** | Symbol: **DB-8PD/B** | Ean: **5908254848896**

### PRODUCT DESCRIPTION

The wireless doorbell button TELERO may be placed at the entrance door or gate, even at a long distance from the building without the risk of losing the signal (the doorbell range in the open field is up to 200m). The transmitter is rain and dust resistant – it has an IP44 rating.

The button has large dimensions (86x86x20 mm), increasing convenience of use, e.g. for the elderly. In addition, it is equipped with backlighting for better visibility and ease of use, especially after dark. Black

colour.
