

Battery carbon monoxide detector with TEST button, 10-year service life, compliance with the EN 50291-1: 2018 standard, tested in Poland

ViRONE

Marka: **Virone** | Symbol: **DC-3-TEST** | Ean: **5908254825798**

PRODUCT DESCRIPTION

This device is designed to continuously monitor the concentration of CO (carbon monoxide) in the air and to detect and alert when the maximal safe concentration is exceeded. The sensor does not detect other poisonous or flammable gases. The sensor has a TEST button to check that the sensor is functioning correctly. The product complies with the EN 50291-1:2018 standard for domestic carbon monoxide detectors.

TECHNICAL DATA

General information:

Low battery indication:	Yes
Test button:	Yes
Nominal voltage:	4,5V
Dimensions - depth:	36 mm
Life time of the sensor:	10 years
Dimensions - width:	107 mm
Dimensions - height:	77 mm
Compliance with standards:	EN 50291-1:2018
