### PRODUCT DESCRIPTION

The TERI II LED desk lamp with a clip is a perfect lighting solution for interiors such as offices, child's rooms or teenager's rooms. Thanks to the clip, it doesn't take up much space on the countertop and leaves more working space.

The presented lamp has a flexible arm that allows to easily adjust it to the preferred position and to direct the light. The universal design blends in perfectly with a variety of designs.

TERI II uses a 5W energy-efficient LED light source, generating a luminous flux of 260lm. A colour temperature of 4000K provides natural, balanced light that does not fatigue the eyes. The lamp is powered by 5V DC. It has a 1.6 m cable with an on/off switch and USB connection (power supply not included).

The housing is made of plastic in black. The height of the lamp is 410 mm.
