

## VUMBI IV T8 Dust-proof LED tube light fitting, IP65, 120cm

Marka: **Virone** | Symbol: **DS-8** | Ean: **5908254851476**

**ViRONE**

### PRODUCT DESCRIPTION

The VUMBI IV dust-proof tube light fitting is a solid and functional lighting solution designed for use in demanding conditions, such as industrial halls, warehouses, workshops, parking lots, garages, underground passages and factories.

It is intended for two T8 LED fluorescent lamps with a diameter of 26 mm and a single-sided power supply (lamps not included). Such light sources feature, above all, energy efficiency and extraordinary performance.

The luminaire operates at a rated voltage of 230V AC.

The VUMBI IV fitting is made of high-quality plastic and is designed for surface mounting. The high IP65 rate guarantees that the product is resistant inside rooms with increased dust and humidity, as well as outside, where difficult weather conditions may prevail.

The dimensions measure: 1271x100x60 mm. Grey colour.

## TECHNICAL DATA

### General information:

|                               |                    |
|-------------------------------|--------------------|
| Nominal voltage [V]:          | 230                |
| Lamp type:                    | Światłówka D=26 mm |
| Lamp holder:                  | G13                |
| Suitable for number of lamps: | 2                  |
| With light source:            | nie                |
| Degree of protection (IP):    | IP65               |
| Protection class:             | II                 |
| Montage:                      | Natynkowy          |
| Material:                     | Tworzywo sztuczne  |
| Colour housing:               | Szary              |
| Width [mm]:                   | 100                |
| Height/depth [mm]:            | 60                 |
| Length [mm]:                  | 1271               |
| Voltage type:                 | AC                 |
