

Electronic timer with upper LCD display 230 VAC, 3680W, 16 switching modes, presence simulator, Schuko

Marka: **Virone** | Symbol: **DT-4(GS)** | Ean: **5908254823992**

VIRONE

PRODUCT DESCRIPTION

Electronic timer with LCD display for setting the time of switching on and off electrical devices such as: lighting, water heaters, advertising, etc. It has 16 time programs, four large buttons and a large LCD display built-in from the top. Such construction of the timer provides easy data reading and easy access to function buttons, even if the device is plugged into a socket located in a hard-to-reach place. Additionally, the device is equipped with a presence simulator, which provides greater security for your home or office.

TECHNICAL DATA

General information:

Nominal voltage:	230V~, 50Hz
Type:	Weekly digital timer
Max. load:	3680 W
Type of socket:	2P+E
Standard of the socket:	schuko (type F)
Degree of protection (IP):	20
Installation:	network socket
Built-in battery:	Yes
Number of programmes:	16
Dimensions - depth:	85 mm
Dimensions - width:	80 mm
Dimensions - height:	85 mm
