

## Inspection door 10/10, black

Marka: **Virone** | Symbol: **ID-10/10/B** | Ean: **5904988909537**

### PRODUCT DESCRIPTION

Inspection door made of high-quality, black ABS plastic. They have a universal design of the flap and frame, so that the opening direction can be changed, if necessary, even when already mounted in the wall.

Inspection doors are useful in buildings of various types, both in private homes and public utility buildings.

They facilitate access to all installations, for example to water meters, siphons or valves. In addition, they

perfectly mask such installations and make the walls look neat.

The door measures 10x10 cm.

We offer a wide selection of inspection doors of various sizes.
