

## Plug-in LED night lamp with 230V socket, 4000K

Marka: **Virone** | Symbol: **LA-6** | Ean: **5908254819889**

**ViRONE**

### PRODUCT DESCRIPTION

The LED lamp with an additional 230V socket is designed to illuminate living rooms, corridors, bedrooms, children's rooms, kitchens and other spaces. The built-in twilight sensor turns the lamp on only when the light intensity is below 10 lux, thanks to which it does not light up unnecessarily, but provides lighting when it is actually useful. The light temperature is 4000 K. This kind of white light is more and more often used in modern interiors, where minimalism and simplicity are the priority. Light in this color is a compromise between warm light and blue, cold lighting.

## TECHNICAL DATA

### General information:

Brightness adjustment:	No
Rated power:	0,8 W
Light source:	LED SMD
Colour temperature:	4000
Twilight sensor:	Yes
Nominal voltage:	230V~, 50Hz
Motion sensor:	No
Dimensions - depth:	93 mm
Battery included:	No
Dimensions - width:	87 mm
Dimensions - height:	60 mm
Other features:	additional network socket
