PRODUCT DESCRIPTION

The 20 m long lighting garland is a perfect outdoor decorative lighting, useful especially in places where there is no access to traditional source of power. It is suitable for use in gardens, on terraces or balconies as a decoration during summer evenings or other outdoor occasions.

The garland contains 20 lighting points which are spaced evenly each 1 m. This provides very good light dispersion along the entire length of the garland. The set includes 20 one-watt LED bulbs with a luminous flux

of 80lm each. One additional bulb is also included. All bulbs generate a pleasant and warm 3000K light. The beam angle (270°) spreads the light widely, covering a large area. The lighting is therefore not only functional but relaxing as well giving each surrounding a unique character.

The IP44 rate guarantees resistance to moisture and dust, which makes the garland safe and suitable for outside use regardless of harsh weather conditions, such as rain or dust. The wiring makes the installation and connection easy and convenient.

TECHNICAL DATA

General information:

Lamp voltage [V]:	230
Lamp type:	Żarówka
Lamp power [W]:	20x1
Luminous flux [lm]:	20x80
Model:	Wąż gumowy
Degree of protection (IP):	IP44
Energy efficiency class of the provided exchangeable built-in lamp:	F
Rated life time L70/B50 at 25 °C [h]:	30000
Cycle on/off:	15000
Colour temperature [K]:	3000
Colour of light:	Ciepła biel
Colour rendering index CRI:	80-89
Beam angle (°):	270
Number of nodes per meter:	1
Length [mm]:	20000
Voltage type:	AC
Exchangeable control gear:	nie
Type of wiring:	Końcowe
Conductor cross section [mm ²]:	2x1
