

Floor lamp LAR, max 20W E27, 160cm, black

Marka: **Virone** | Symbol: **LS-1/B** | Ean: **5908254816079**

VIRONE

PRODUCT DESCRIPTION

The 160 cm high standing floor lamp LAR will perfectly complement lighting in rooms such as living rooms, bedrooms or children's rooms. We especially recommend it as a reading lamp, because the flexible arm with the shade can be tilted freely, so that each user can direct the light beam according to his needs. The lamp has a minimalist look. It will fit both – to modern interiors and Scandinavian-style rooms. Due to its simple form and neutral colors, it will also be perfect for children's and teenagers' rooms, where there is usually a multitude of colors and shapes. The entire body, from the shade to the base, is made of metal and has a mat finish

available in black or white.
