PRODUCT DESCRIPTION

The GRACE 3P floor lamp is a functional lighting whose simple form combined with classic black and subtle wooden elements fits harmoniously into both modern and more classic arrangements.

The lamp is designed to operate at a voltage of 230V. The E27 thread allows the use of three replaceable light sources with a maximum power of 18W each. The lack of bulbs in the set gives the user complete freedom in choosing the colour and intensity of light – from a warm, relaxing atmosphere to a cooler,

functional lighting for work.

Movable lampshades allow to direct the light beam in the selected direction. This makes it possible to both illuminate a larger space and precisely illuminate a specific area, e.g. a workplace.

The 1.8 m long cable with a built-in switch facilitates to place the lamp at a considerable distance from the socket without the need for an additional extension cord. The adjustable height of GRACE 3P ensures comfort of use. Designed for indoor use (IP20).

Made of a combination of steel and plastic. Dimensions: Ø220×1920 mm.
