PRODUCT DESCRIPTION

LED hand torch, powered by a battery charged via a Micro USB port, is a solid piece of equipment, designed for both home and professional use. An efficient battery with a capacity of 1200mAh provides comfort of uninterrupted flashlight operation for many hours. A solid construction made of resistant materials is a promise of long and comfortable use, wherever a strong source of light is necessary. The flashlight is multifunctional, it has 4 operating modes: • main headlight - 100% and 25%, respectively about 4 and 8 hours of light when fully charged, • strobe mode, • bottom lighting 100% - about 8 hours of lighting when fully charged. In addition, it is

resistant to water splashes and moisture (IPX3), equipped with an ergonomic handle to which it is easy to attach, for example, a backpack or technical clothing shackle. It will also be useful as a stand-alone lantern - during cleaning in the attic, power outages, in a home garage or on a camping trip out of town. It is light, weighing only 215g, so it will fit well into a survival kit. The base 3W diodes generate a luminous flux of 165 lumens and provide a service of about 50,000 hours. A special LED indicates the battery status while charging. The small size - 12x17 cm - allows you to easily take it with you almost anywhere.
