### PRODUCT DESCRIPTION

LED COB + SMD headlamp with battery and motion sensor. VIRONE headlamp equipped with two types of diodes: COB LED panel (red and white light) and high efficiency SMD LED (white light). It also has a built-in battery charged with a popular USB-C socket, which allows you to charge it with a regular phone charger - at home, in the office or via your car charger, without the necessity to take dedicated accessories with you. Interestingly - it is also equipped with a motion sensor. This is a headlamp model that works well for active people, cyclists, mountain climbers or, of course, for runners. The flashlight is made of plastic, resistant to

long-term use, dirt and splashes (IPX4). It generates a luminous flux of 350 lumens and has 3 lighting modes: • LED SMD white light • COB white light • COB red light Thanks to the materials used and the flexible design, it provides comfort and stability, both directly on your head and when you wear a cap or a protective helmet. Blue color.
