

LED COB + XPG headlamp/bike light with 1200mAh Li-ion battery, motion sensor

ViRONEMarka: **Virone** | Symbol: **LT-14** | Ean: **5908254842818**

PRODUCT DESCRIPTION

Professional LED COB + XPG headlamp with 1200 mAh Li-ion battery and built-in motion sensor. The torch is designed for work requiring free hands, cycling, as well as mountain climbing or evening running. It will also find its use in emergency situations such as power failure.

The multifunctionality of the device allows it to be used as a headlamp or mounted on the frame of a bicycle (a special mount is included). The device has an adjustable head of 180 degrees. With this feature, you can

adjust the direction of the light as required.

Torch with 5 light modes (LED high mode, LED low mode, LED strobe, COB high mode, COB low mode). It can be activated manually, using a button, or switched to a motion sensor - switching the light on/off by moving your hand. This solution is convenient in situations where gloves are worn on the hands or when the light needs to be operated quickly.

The torch has a main XPG LED with a stronger luminous flux and side COB LEDs, which stand out for their smooth light and consistent color.

The protection level is IPX4, which means that it can be used not only indoors, but also outdoors - protection against splashing water. The torch can be used in drizzle or light rain, as well as when driving through a puddle.

The device has two adjustable straps - one around the head and the other through the middle of the head, providing great stability even when a helmet or cap is worn. There is a magnet in the housing of the torch so that the torch can be mounted on metal surfaces.

An added value is the convenient charging of the torch via the included micro USB cable, so that the user does not need to replace the battery.

The device is made of plastic with a black housing color.

TECHNICAL DATA

General information:

Lamp type:	LED COB + XPG
Power [W]:	1/3
Luminous flux [lm]:	90/170
Power type:	Akumulator Li-ion
Battery capacity [mAh]:	1200
Number of batteries:	1
With batteries:	tak
Number of light modes:	5
Modes of operation:	LED tryb wysoki, LED tryb niski, LED stroboskop, COB tryb wysoki, COB tryb niski
Rechargeable:	tak

Battery charge indicator:	tak
Light range [m]:	30-90
Color rendering index Ra/CRI:	70-79
Lifespan L70/B50 [h]:	30000
Number of switching cycles:	10000
Degree of protection (IP):	IPX4
Model:	Światło czołowe/Rowerowe
Material:	Tworzywo sztuczne
Colour housing:	Czarny
Length/height [mm]:	91.5
Width [mm]:	44
Depth [mm]:	33
The ports:	micro USB
Accessories:	Kabel ładowania, uchwyt do roweru
Additional information:	Czujnik ruchu, regulacja w zakresie 180°
Rechargeable:	tak
With light source:	tak
