PRODUCT DESCRIPTION

The 15W hand LED flashlight is perfect for use in the workshops, garages, basements, on construction sites, as well as in the home or during outdoor activities such as camping or mountain hiking.

The built-in 3000mAh Li-ion battery is charged via USB-C port (charging cable included), eliminating the need to replace the battery. In addition, the product is equipped with a USB-A output to charge additional devices, such as a phone. A digital indicator placed on the housing informs of the percentage of battery charge and

indicates the charging process.

The flashlight offers five operating modes: high, medium, low, strobe and SOS. It provides strong light (1200lm) with a range of up to 300m. The zoom function facilitates to adjust the light beam as required, from broadly illuminating a space to precisely lighting a point. The LED light source combines high light efficiency with low energy consumption. It provides a cold light of 10000K.

The product is IPX4-rated, and its robust aluminium construction ensures resistance to external damage. The handle in a special shape facilitates a secure and stable grip, even in difficult conditions. The wrist lanyard allows the flashlight to be carried comfortably and to be hung or attached to a rucksack.

Black colour. The dimensions measure: 180-200x53 mm.
