

Full motion TV wall mount, 13"–42"

Marka: **Virone** | Symbol: **MH-2** | Ean: **5904988907342**

VIRONE

PRODUCT DESCRIPTION

With the VIRONE bracket, you can successfully mount a TV or monitor with a diagonal between 26" and 55" and weighing up to 25 kg on the wall.

This solution allows you to mount your TV easily and securely and saves space - you no longer need stands or tables. Enjoy your equipment without worrying that it will accidentally be knocked down, fall over or be damaged by unstable mounting.

In addition, the arm of the bracket makes it easy to adjust the angle of the TV from -12° to $+5^{\circ}$ and to correct the tilt of the screen by $\pm 3^{\circ}$. Furthermore, the swivel adjustment for this bracket model is 180° .

The arm also allows us to choose the desired distance of the TV from the wall - from 55 mm to as much as 342 mm. The swivel TV wall mount is compatible with VESA standards of 75x75 to 400x400 mm, so within the standard: VESA 75 - hole spacing 75 mm x 75 mm, VESA 100 - hole spacing 100 mm x 100 mm, VESA 200x100 - hole spacing 200 mm x 100 mm, VESA 200 - hole spacing 200 mm x 200 mm, VESA 300x200 - hole spacing 300 mm x 200 mm, VESA 300 - hole spacing 300 mm x 300 mm, VESA 400x200 - hole spacing 400 mm x 200 mm, VESA 400 - hole spacing 400 mm x 400 mm.

The product is made of powder-coated steel and is available in black.

TECHNICAL DATA

General information:

Suitable for:	Telewizor
Mounting method:	Ściana
Pivoting range [°]:	3
Angle of inclination [°]:	5/-12
Load bearing capacity [kg]:	25
Mounting Interface Standard (MIS) according to VESA:	400x400
Colour:	Czarny
