

Full motion TV wall mount, 32"-55"

Marka: **Virone** | Symbol: **MH-5** | Ean: **5904988907373**

PRODUCT DESCRIPTION

Swivel TV wall mount for 32"-55" televisions, designed for mounting in the VESA standard for hole spacing of 100×100 mm ~ 400×400 mm. Allows comfortable and safe use of LED monitors and LCD TVs while saving space.

The VIRONE wall mount is a simple and safe solution. You will be able to hang a TV between 32 and 55 inches on it without any problems. You will find the appropriate screws included to easily mount your TV to the wall.

The TV bracket is compatible with VESA standards, so the hole spacing will be suitable for many variants: VESA 100 - hole spacing 100 mm x 100 mm, VESA 150x100 - hole spacing 150 mm x 100 mm, VESA 200x100 - hole spacing 200 mm x 100 mm, VESA 200 - hole spacing 200 mm x 200 mm, VESA 300 - hole spacing 300 mm x 300 mm, VESA 300x200 - hole spacing 300 mm x 200 mm, VESA 400x200 - hole spacing 400 mm x 200 mm, VESA 400 - hole spacing 400 mm x 400 mm and all others from 100x100 to 400x400 mm.

The universal TV wall mount has a load capacity of up to 30 kg, is made of robust 13 mm thick steel and powder-coated black. Correct installation assumes a distance of 57 mm from the wall, so it will successfully save space even in a small room.

In addition, the bracket's arm makes it easy for you to adjust the angle of the TV from -12° to $+8^{\circ}$ and to correct the tilt of the screen by $\pm 3^{\circ}$ and compensate for any mounting errors. Furthermore, the swivel adjustment for this bracket model is approximately 60° .

TECHNICAL DATA

General information:

Suitable for:	Telewizor
Mounting method:	Ściana
Pivoting range [°]:	3
Angle of inclination [°]:	8/-12
Load bearing capacity [kg]:	35
Mounting Interface Standard (MIS) according to VESA:	400x400
Colour:	Czarny
