

Full motion gas spring dual monitor arm, LED 17"-27"

Marka: **Virone** | Symbol: **MH-F160** | Ean: **5904988907397**

VIRONE

PRODUCT DESCRIPTION

The robust dual monitor arm, equipped with a gas spring, allows you to easily mount two screens and adjust their positioning to suit your needs. The monitor arm is designed for LED LCD screens between 17" and 30" and countertop mounting. The handling load of each arm is a maximum of 2-9 kg. Arm compatible with VESA standards 75 x 75 and 100 x 100.

The device allows full 3D adjustment. Made from quality aluminium alloy and designed to combine robust

construction with space saving. A gas spring allows the height of the screen to be adjusted smoothly and effortlessly – both screens can be adjusted independently. In addition, the compact design provides more free space on the desk. The product is made of aluminium alloy and is TUV certified.

PIVOT function allows you to easily change the screen layout from horizontal to vertical and vice versa – 360° rotation about the monitor axis 180° clockwise and counterclockwise screen rotation. Tilt angle adjustment from -30° do + 85°.

VESA plate dimensions 115 x 115 mm. All necessary mounting components and instructions are included, and the warranty covers a period of two years. The product available in black.
