

Mosquito killer lamp, ~230V, 3W, 16m²

Marka: **Virone** | Symbol: **MK-1** | Ean: **5908254814129**

ViRONE

PRODUCT DESCRIPTION

This electric lamp uses 3W power and a special color of the emitted light to attract and eliminate flying insects. All flies and mosquitos are killed in contact with the electric charge on the net in front of the light source and then drop into the container located below. It works without any chemicals and it does not emit any harmful substances to the environment. This lamp is completely safe for humans and animals and will prove useful at homes, stores, hotels or camping houses.
