Marka: **Virone** | Symbol: **ML-15/4** | Ean: **5904988906437**

ViRONE

PRODUCT DESCRIPTION

The rectangular LED mirror is not only a functional fitting but also an elegant lighting addition to every interior. The possibility of mounting it vertically or horizontally facilitates to perfectly adjust it to every preference or space arrangement. The mirror has hooks, thanks to which it is ready to be hanged anytime.

It has a 230cm long LED strip with the power of 6W/m. The LED strip is installed behind the mirror; in this way, it is invisible, and the mirror stays aesthetic. The colour temperature of 4000K ensures illumination that is natural

and pleasant to the eye.

The driver's high ingress protection rate (IP67) protects it from moisture and dust; therefore, the mirror works not only in bathrooms but also in other spaces as well.

The mirror measures 60x80cm.
