

One-truck switch black push button, black housing

Marka: Orno | Symbol: OR-AE-13317/1P/B/B | Ean: 5908254852831

PRODUCT DESCRIPTION

Choose this switch to turn a lamp or other small electrical device on and off without reaching for the plug.

The single-pole switch is suitable for desk, night and decorative lighting, as well as for simple systems requiring manual ON-OFF switching. It operates as a single-pole ON-OFF switch, so it disconnects or applies power to only one wire. This allows you to use it in lamps, LED modules and small devices that require simple, mechanical control.

The black housing looks good with dark cables and matches, for example, a black lamp base.

The ABS plastic body is resistant to minor impacts during everyday use, and the screw terminals allow for quick connection of the phase wire (no soldering required). Simply insert both ends of the cable, tighten the screws and close the housing.

The rated current of 6 A enables safe control of lighting and small household appliances.

TECHNICAL DATA

General information:

| | |
|--|--|
| Wiring system: | Łącznik 1-biegunowy |
| Method of operation: | Przycisk wahadłowy |
| Assembly arrangement: | możliwość łatwego włączania i wyłączenia obwodów elektrycznych |
| Push button switch: | Tak |
| Number of rockers: | 1 |
| Mounting method: | Inne |
| Type of fastening: | Mocowanie śrubowe |
| Material: | Tworzywo sztuczne |
| Material quality: | ABS, Miedź |
| Surface finishing: | Błyszczący |
| Colour: | Czarny |
| Colour of switch operator: | Czarny |
| Label space/information surface: | Tak |
| Illumination: | Nie |
| Suitable for degree of protection (IP): | IP20 |
| Nominal voltage [V]: | 250 |
| Rated current [A]: | 6 |
| Connection type: | Zacisk śrubowy |
| Device width [mm]: | 65 |

| | |
|------------------------------|-------|
| Device height [mm]: | 27 |
| Device depth [mm]: | 22 |
| Weight [g]: | 14.6 |
| Frequency [Hz]: | 50/60 |
| Temperature resistance [°C]: | 120 |
| Resistance load [KW]: | 1.5 |
