

Hermetic, flush-fitting socket, IP44, 1x2P+E(Schuko), white

Marka: Orno | Symbol: OR-AE-1397(GS)/W | Ean: 5908254849022

ORNO

PRODUCT DESCRIPTION

The hermetic square flush-fitting socket is a perfect solution both for domestic and commercial spaces. It works well in places that require high protection against external factors.

It has a Schuko-type socket that allows to connect an electrical device with a maximum load of up to 3680W. The socket operates at 230V, 50Hz, making it suitable for most standard electrical installations.

The IP44 rate ensures that the product is resistant to dust and moderate water splashes and may be used for years. The socket is made of durable zinc alloy and high-quality plastic to ensure reliable operation. The white finish makes it look aesthetic and minimalistic. As an additional safety feature, a built-in cover protects the socket from dust and moisture. The cover opens at an angle of 90°, allowing convenient access to the socket.

The socket is square and measures 86x86x57mm.

TECHNICAL DATA

General information:

Model:	Do wbudowania
Folding:	tak
Nominal voltage [V]:	230
Frequency [Hz]:	50
Max. Load [W]:	3680
Standard of the socket:	Schuko (typ F)
Number of socket outlets with protective contact (SCHUKO):	1
Degree of protection (IP):	IP44
Shape:	Kwadratowy
Length [mm]:	86
Width [mm]:	86
Height [mm]:	57
Material:	Stop cynku i tworzywo sztuczne
Color:	Biały
Other:	Kąt otwarcia: 90°
