Doorbell button, battery-free, for wireless doorbells, SETI series, black

Marka: **ORNO Home** | Symbol: **OR-DB-AB-169PD/B** | Ean: **5908254843617**

PRODUCT DESCRIPTION

Wireless button for expansion of SETI doorbells. Thanks to the wireless technology it requires no complicated installation. Simply place the transmitter near the door or the gate. The button is battery-free; therefore, convenient in use.

Thanks to the learning system several transmitters may be added and placed at different entrances. Simply pair the button with the SETI AC doorbell.

ORNO GROUP Sp. z o. o. All rights reserved.

You may freely place the transmitter at any distance from the house as the transmission range in the open field reaches up to 150m. The IP44 rate guarantees protection from rain and dust as well as dependable operation in various weather conditions.

The housing in black with a special soft touch cover is elegant and aesthetic.

The SETI doorbell and the doorbell button are available also in white.
