

SOS doorbell button, battery-powered, for wireless doorbells, SIGO series, white

Marka: ORNO Home | Symbol: OR-DB-MK-175PDSOS/W | Ean: 5908254846212

PRODUCT DESCRIPTION

The wireless battery-powered SOS button to expand SIGO wireless doorbells is an additional alarm button with a lanyard compatible with the SIGO doorbell. Intended for older or ailing people to ensure their safety.

Its aim is to help in a difficult situation, in case of health or life concern. Having Tuya Smart app installed, the user may react immediately. The SOS transmitter is powered by one 1xCR2032 coin battery. Water splash resistant (IP44 rate).

Thanks to Wi-Fi integrated with Tuya platform, the device sends a notification of a guest ringing the doorbell even while the household members are away. One needs simply to install the Tuya Smart app on the phone (supports Android and iOS systems) and pair it with SIGO AC. After connecting additional doorbell buttons and after configuring each of them, the app immediately recognizes which transmitter gave a signal and sends a notification to the phone. This is an extremely important feature especially for older people as one may immediately respond to an imminent threat, e. g. in case of an unknown guest.

Made of plastic in white. The dimensions measure 38x76 mm.

TECHNICAL DATA

General information:

Wireless:	tak
Type of current:	DC
Nominal voltage [V]:	3
Battery - type and quantity:	1xCR2032
Built-in battery:	tak
Transmitter max. power [mW]:	≤20
Degree of protection (IP):	IP44
With lighting:	tak
Shape:	Owalny
Colour:	Biały
Material:	Tworzywo sztuczne
Mounting method:	Inne
Width [mm]:	38
Height [mm]:	76
Depth [mm]:	15
