

Natural gas detector 230V AC

Marka: ORNO Home | Symbol: OR-DC-614 | Ean: 5901752482258

PRODUCT DESCRIPTION

The OR-DC-614 sensor is a modern natural gas detector for indoor use. It is used for continuous monitoring of the presence and detection of natural gas escaping from leaks. The device uses a high quality semiconductor sensor to achieve a high detection rate. When a gas leak reaching the set alarm threshold is detected, the detector will emit a signal and a red LED will be activated

TECHNICAL DATA

General information:

Nominal voltage:	230V~, 50Hz
Types of detected threats:	natural gas
Type of power supply:	directly to 230V
Alarm volume (db):	≥70
Test button:	Yes
Hush button:	No
Failure indication:	Yes
End of life indication:	Yes
Dimensions - depth:	41 mm
Life time of the sensor:	5 years
Dimensions - width:	82 mm
Dimensions - height:	125 mm
Other features:	relay output, the function of closing the gas cut-off valve to the installation
Display:	nie "
Type of sensor:	semiconductor
