

LPG gas detector 230VAC

Marka: **ORNO Home** | Symbol: **OR-DC-631** | Ean: **5908254804663**

PRODUCT DESCRIPTION

The OR-DC-631 sensor is a modern LPG gas detector for indoor use. It is used for continuous monitoring of the presence and detection of LPG gas escaping from leaks. The device uses a high-quality electrochemical sensor to achieve a high detection rate. When a gas leak reaching the set alarm threshold is detected, the detector will emit a signal and a red LED will be activated.

TECHNICAL DATA

General information:

Nominal voltage:	230V~, 50Hz
Types of detected threats:	propane-butane
Type of power supply:	directly to 230V
Alarm volume (db):	≥85
Test button:	Yes
Hush button:	No
Failure indication:	Yes
End of life indication:	Yes
Dimensions - depth:	51 mm
Life time of the sensor:	5 years
Dimensions - width:	102 mm
Dimensions - height:	170 mm
Compliance with standards:	EN50194-1:2009
Type of sensor:	semiconductor
