

Single family audio outdoor unit, wireless, to expand LEKIO sets

Marka: ORNO Home | Symbol: OR-DOM-YR-934KD/B | Ean: 5908254846243

PRODUCT DESCRIPTION

Outdoor unit to expand LEKIO set for single family houses or small companies, which do not have cables run to a wicket. The device works well for those who want to control the entrance to the property.

The range of the device in the open field is up to 440 m, thus enabling installation of the outdoor unit both on a door and wicket even in a great distance from the house.

There is a possibility to continuously supply the outdoor unit with the help of power supply and USB C connector. Controlling the electric door strike via the control module (included), which acts simultaneously as an exit button, ensures security and ease of operation.

The outdoor unit, IP54 rated, is equipped with a protective cover which guarantees resistance to adverse weather conditions and rain. It is made of high-quality plastic. Its dimensions measure 59x135 mm in order to facilitate installation on a narrow fence post or in a place where it will not occupy unnecessary space.

LEKIO set may be expanded up to 4 outdoor units.
