

Electronic wired doorbell WEIA AC, 38 sounds, 230 V, white

Marka: ORNO Home | Symbol: OR-DP-MR-180/W | Ean: 5908254853340

PRODUCT DESCRIPTION

Install the wired doorbell in a hallway and select a melody that best suits a home, office, or educational facility. With 38 available tones, you can easily choose a pleasant sound. An 80 dB volume level ensures the signal is audible even in larger rooms.

The doorbell is connected directly to a 230 V AC power supply. It is equipped with a safe push button: the call is triggered by a short circuit on a separate terminal block, so mains voltage does not pass through the

button (the button has only two control wires, without mains voltage). This is a safer solution, especially for installation in frequently used areas.

The device is surface-mounted. It is suitable for installation in a hallway, office, lobby, or school corridor. The white housing blends discreetly with light-colored walls.

The WEIA AC model is compatible with codelocks equipped with a doorbell output, such as the OR-ZS-803 and OR-ZS-824 models.

TECHNICAL DATA

General information:

Type:	elektroniczny
Wireless:	nie
Type of current:	AC
Nominal voltage [V]:	230
Mounting method:	Montaż natynkowy
Number of ringtones:	38
Loudness [dB]:	80
Volume adjustment:	nie
Colour housing:	Biały
Material housing:	Tworzywo sztuczne
Degree of protection (IP):	IP20
Width [mm]:	115
Height [mm]:	115
Depth [mm]:	43
