The set includes compact in size remote control (38x80,5x13mm), which ensures convenient uni-directional operation, and French-type power socket (2P+E), which is compatible with many devices. IP20 rate facilitates indoor installation in dry places, not exposed to moisture. The socket measures 55x55x80 mm.

The remote control and the receiver are very compact in size which makes them look aesthetic. The transmitter's supply voltage (1xCR2032) and the range up to 30 m in the open field ensure stable operation in different conditions.
